ExpressTan™ 1000
Home Tanning System
(Patent-pending)

Looks good... in your home

Doors close up flat against the wall when not in use and come in a broad range of attractive styles to match any decor.

Looks good... on your schedule

Get the tan you want whenever you want, in less time, and in the comfort and privacy of your own home.

Looks good... on you!

Vertical design gives you a more natural-looking tan than with lay-down beds... and in cool comfort.

Put the beach within your reach!

Other home systems pale in comparison!

**With true convenience and affordability,
home tanning never *looked so good.***

ExpressTan™ 1000 BY PEACOCK TANNING SYSTEMS

No space? No problem.

- Unlike cumbersome and intrusive tanning beds, the unique fold-away design of ExpressTan™ is perfect for the bedroom, bathroom, locker room, office, salon... anywhere.
- Unit takes up less than 1 sq. ft. of floor space.
- When it's time to redecorate, ExpressTan™ can change along with your style. Optional, customized doors can be easily changed to match your new décor. (Also available: Oak, Cherry)

Privacy and ease of use? It's all yours.

- Show it off to your friends, or keep it to yourself. It's your tan. It's your home. It's your secret.
- Doors with a metallic interior open out to reflect light to the sides of the body which helps provide a more even, natural-looking tan.
- Stand-up design means no body contact, no messy lotions or oils to wipe up.
- Inside ExpressTan™, you have total freedom of movement. You can raise and lower your arms, turn around, even dance to your favorite song!

A tanning experience like this? It's worth it.

- Powerful 10-bulb design for 12-minute (per side) maximum tanning sessions. That's much faster than other home systems and the perfect time for a quick and invigorating sun shower.
- ExpressTan™ is both cost- and energy-efficient. It runs on regular household power and needs only a fraction of the power required by comparable systems
- You could be basking in the glow of your own home tanning system right now!

What does an ExpressTan™ look – and feel – like?

Natural. Upright position means no pale patches caused by skin creases.

Complete. Helps tan sides of the body by reflecting UV rays with metallic side panels

Cool. System fan at top keeps the temperature down even when the lamps are on.

Comfortable. No body aches or white spots caused by pressure points while lying down.

Contained. Acrylic safety shield prevents accidental contact with bulbs.

User-friendly. Open-air design. Convenient tanning for people on the go.

System Specifications
